

## PMAG ELECTROMAGNETIC FLOWMETER

*Flow measurement for water or conductive liquids for chemicals, water, wastewater or pulppaper industrial plants and processes.*

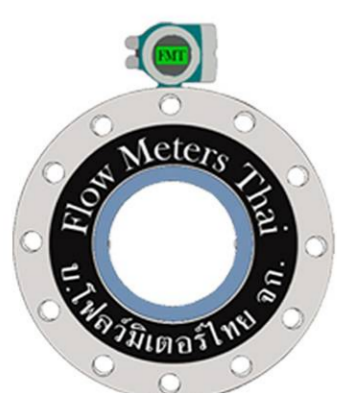

**Compact Type**

Pipe dimension range : DN10 - DN1000. Flange DIN (option ANSI or JIS )  
IP rating compact version: Electronics IP66, Sensor IP67  
IP rating remote version: Electronics IP66, Sensor IP67, Optional IP68

**Remote Type**

- Accuracy :  $\pm 0.5\%$  std. Option  $\pm 0.2\%$
- Output : Analog 4 - 20mA and Pulse output
- Communication : RS485 Modbus or Hart (option).
- Lining : Neoprene rubber (PTFE option).
- Electrodes : 316SS, Option: Hastelloy C ,Titanium ,Tantalum
